

Headlight Transmitter

Gate Automation Equipment

Genie Keyfob

Ghost 200

6RR

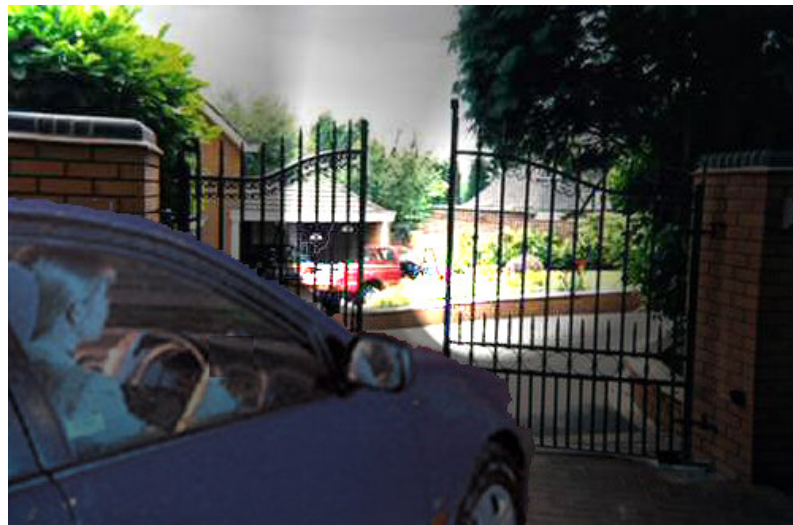

DK918s

D5731

This easy to fit transmitter connects to the car headlamps and opens the gate by flashing the main beam when approaching the gate. It uses the same coding as the keyfob for complete security. Can also be used for opening your garage door.

Part No. DEA/237HF £60 €90

Technical Specification

Operating Voltage	12V DC
Range -	50m

All prices exclude VAT & Delivery
